EDUCATION

Simon Fraser University

Burnaby, BC

Bachelor of Science in Computer Science

Expected Graduation: Dec 2027

- Dean's Honor Roll (top 5% in faculty)
- Computer Science: Data Structures and Algorithms, Software Engineering, Computer Systems, Database Systems
- Mathematics: Discrete Mathematics, Differential/Integral Calculus, Linear Algebra, Probability and Statistics

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL (SQLite, MySQL, Postgres), JavaScript, HTML/CSS, MATLAB, Markdown

Frameworks: React.js, Node.js, JUnit, Firebase, Gatsby.js, Spring Boot, Django

Developer Tools: Git, GitHub, Docker, VS Code, Visual Studio, PyCharm, IntelliJ, Excel

Libraries: numpy, pandas, matplotlib, scikit-learn

PROJECTS

Database Schema Constructor | Javascript, React, Firebase, Node.js, jsPlumb

Mar 2024

- Developed a web tool for designing databases and exporting them as SQL queries without having to write code
- Used Firebase user authentication and Firestore to allow users save their databases in the cloud for ease of access

Quant Market Predictor | Python, numpy, pandas, matplotlib, scikit-learn

Feb 2024

- Created a model using sklearn's Linear Regression library, analyzing historical stock data to predict future prices
- Added the ability to get the volatility of stock by calculating the standard deviation of its market price fluctuations
- Leveraged Python's unit testing library and GitHub workflows to ensure production-ready code

RateRover | JavaScript, React, Axios, openexchangerates

Jun 2023

- Built a React application that makes external api calls using axios to allow users to convert between currencies
- Optimized cache usage and minimized server requests to obtain a lighthouse performance score of 99

Sorting Visualizer | Java, JUnit Testing, Swing, Maven

Jan 2023

- Designed a desktop application with the Java Swing library to visualize the different routines of sorting algorithms
- Implemented bubble sort, selection sort, insertion sort, merge sort, and quick sort using object-oriented design
- Programmed unit tests for each sorting algorithm with JUnit to ensure proper functionality

VOLUNTEERING / EXTRACURRICULAR

Software Developer

Jan 2024 – Present

SFU Open Source Development

Burnaby, BC

- Developed a NBA Statistics Tracker web app using React as the frontend and Django as the backend
- Worked as a team, adopting Agile methodologies to enhance productivity and ensure timely delivery
- Utilized GitHub for version control, and collaboration through code reviews and merges to ensure timely updates

Game Tester

Feb 2021 – Mar 2021

Pocket Pinata Interactive

Remote

- Collaborated as a team to find in-game bugs efficiently resulting in shorter game launch timelines
- Utilized Slack to communicate with team members, resulting in effective project coordination

Teaching Assistant

Sep 2021 – June 2022

VikingsDev

Burnaby, BC

- Mentored high school students in Python programming and guided them to create their first personal projects
- Led interactive workshops, simplifying coding concepts in Python, resulting in increased student engagement

WORK EXPERIENCE

Teaching Assistant

May 2023 – Dec 2023

Kumon

Burnaby, BC

- Guided students in learning Calculus, Algebra, Trigonometry, Reading, Writing, and Poetry
- Graded student work and provided input for improvements, increasing student productivity and learning
